

The Great Commandment

Jesus gave us the Great Commandment as a way of keeping the promises we make in the Act of Contrition. In the space below, draw a picture of two friends doing something that shows they understand the Great Commandment.

You shall love the Lord, your God, with all your heart, and with all your soul, and with all your mind. You shall love your neighbor as yourself.

Family Note: Your child is learning to apply the Great Commandment to her or his own life. If your child completes this activity page at home, supply art materials and help with ideas. Display the completed drawing on a family bulletin board or refrigerator door.

Catechist Note: Use this activity page with Chapter 2, "Loving God." Before assigning the drawing activity, brainstorm some ways to follow the Great Commandment. Provide art materials. Encourage the children to take their completed drawings home to share with family members.
